PRESS COMMUNIQUÉ.

Fort St. George, September 6, 1938.

No. 463.—

The following is published for general information:—

1. The Secretary of the International Fellowship of Vellore has addressed a letter to Government raising queries as to the exact scope of the prohibition contained in G.O. No. 1503, Public (Services), dated the 23rd September 1936. The position was made clear in reply to a question in the Madras Legislative Assembly in September last. The question was fully considered once again upon a letter from the said organisation to the Hon'ble the Prime Minister, dated the 26th February 1938, and the position was explained to the Association in a reply from the Chief Secretary.

2. The Government desire to make it clear once again that they have not the slightest doubt or suspicion about the character and work of the International Fellowship which they are aware are entirely praiseworthy. There is no ban on the organisation in the sense that it is subjected to any disqualification in law, nor was the Association brought under any kind of displeasure or suspicion of the Government in respect of its activities. The Government are of opinion, however, that it is not possible to change the rule as regards the conduct of permanent servants of the Government, which prohibits their participation in politics and in the discussion in public or in meetings of associations, of the policies of the Government. The Government are of opinion that for the proper discharge of their duties, Government servants should abstain from such discussions. It, therefore, follows that no permanent servant of the Government can be a member of any association or organisation whose activities normally include such discussion. This rule would operate not only in respect of the International Fellowship but in respect of any association whose work similarly covers politics and the discussion of Government policies in mixed company.

3. There can be no objection, however, to any Government servant participating in or associating with any of the non-political activities of the Fellowship or its branches and such association or participation cannot be deemed a breach of the rules of conduct of Government servants.

H. M. HOOD,
Chief Secretary.

Where in respect of any debt shown in the application no decree or order has been passed by a civil court or a Debt Conciliation Board, the application shall be accompanied by a statement of consent by the creditor or creditors agreeing to the sealing down of the debt or debts by the Loans Officer. Such statements shall be signed by the creditors, or if they are illiterate, shall bear their mark which shall be attested by two respectable witnesses.

(2) Any application made otherwise than in conformity with the provisions of sub-rule (1) shall be returned to the applicant for rectification or if in the opinion of the Loans Officer it is not possible to rectify the application, it shall be rejected.

IX. *Procedure on receipt of application.*—(1) On receipt of an application for a loan the Loans Officer shall satisfy himself by scrutiny or otherwise whether a decree or order has already been passed in respect of the debts in question by a civil court or Debt Conciliation Board. If the decree or order is found to have been passed before the commencement of the Madras Agriculturists Relief Act 1938, the application shall immediately be returned to the applicant with instructions to apply to the civil court or to section 19 of that Act or to the Debt Conciliation Board concerned for a modification of the decree or order with reference to the provisions of that Act.

(2) If the decree or order was passed after the commencement of the Madras Agriculturists Relief Act 1938, the Loans Officer shall immediately scrutinise the copy of the decree or order of the civil court or Debt Conciliation Board furnished by the applicant, and, after such enquiry, if any, as he may deem necessary, satisfy himself that the loan, if granted, will not disable the applicant from his indebtedness or at least discharge the entire encumbrance on a definable part of the applicant's property as determined by the decree or order.

(3) Where no decree or order has been passed and a separate Debt Conciliation Board has been established in the revenue division in which the applicant ordinarily resides or in which the property is situated, the Loans Officer shall, if the debt can be sealed down under the Madras Agriculturists Relief Act, 1938, return the application to the applicant with instructions to apply to the Debt Conciliation Board for a sealing down of the debts under that Act.

(4) Where no decree or order has been passed and no Debt Conciliation Board has been established in the revenue division in which the applicant ordinarily resides or the property is situated, the Loans Officer shall satisfy himself, by such enquiry as such the creditors of the applicant or otherwise that the loan, if granted will discharge all the debts of the applicant or the whole encumbrance on a definable part of his property after the sealing down of debts effected by the Loans Officer under sub-rule (2) of rule IX in accordance with the provisions of the Madras Agriculturists Relief Act, 1938.

(5) If in cases falling under sub-rule (4), notices shall be issued by the Loans Officer—

(*a*) to the applicant in Form B, and

(*b*) to the creditors in Form C

to appear in person with the documents and other records and on a date mentioned in the notice. On the receipt of all the documents and records connected with the claims of the creditors, the Loans Officer shall scrutinise them and shall examine the creditors and the applicant, and make such other enquiry as he may think fit in respect of the nature, binding character and amount of such claim. He shall then scale down the debts under the Madras Agriculturists Relief Act, 1938, if both the applicant and his creditor or creditors agree to the scaling down and there is a *prima facie* probability that after such scaling down he will be able under the rules to grant a loan sufficient to discharge all such debts or the whole encumbrance on a definable part of the applicant's property.

(6) If every creditor agrees to take in full settlement of his claim the amount fixed after such scaling down, the Loans Officer shall by an order in Form D inform the applicant and the creditor or creditors—

(*a*) that, subject to the result of the enquiry under rule IX proving satisfactory and subject also to the furnishing by the applicant of adequate security, a loan equivalent to the sum total of the principal fixed as payable to each creditor, rounded off, if necessary, to the next high multiple of ten rupees, will be sanctioned, provided that such amount represents either the applicant's total debts or the total encumbrance on a definable part of his property, and

(*b*) that the loan, when granted shall be disbursed direct to the creditors concerned in accordance with the amounts fixed under clause (1) as payable to them respectively and the excess, if any, sanctioned on rounding off shall be disbursed to the applicant.

(7) Debts resting with order the Loans Officer shall obtain a signed statement in Form D from each of the creditors in the effect that he will take payment of the amount fixed under clause (1) in respect of his claim, on the date and at the place fixed by the disbursing officer.

(*a*) If any creditor does not agree to accept the amount fixed under clause (1) the Loans Officer shall reject the application if the amount which the creditor refuses to accept forms part of the applicant's debts or, as the case may be of the total encumbrance on a definable part of the applicant's property, for the discharge of which the loan is applied for.

(*b*) After an order in Form D is passed in cases covered by sub-rule (4) and in all cases covered by sub-rule (5), notice of local enquiry shall be issued in Form F to the applicant and to all his ascertained creditors.

IX. *Local enquiry.*—(1) No loan shall be sanctioned without a local enquiry by the Loans Officer or by any other officer who may be deputed by him in this behalf. When it is proposed to grant a loan the Loans Officer or any other officer deputed by him to hold the local enquiry shall cause a notice in Form F to be put up in the village chavadi, or if there is no village chavadi, in a conspicuous place in the village. The notice shall also be intended to hold an enquiry into the application on a date mentioned in the notice and will be prepared to receive and enquire of persons to the grant of the loan. Copies of this notice shall be served on or sent by post to the applicant and all the creditors mentioned in the loan application whom it is proposed to pay off with the loan applied for. On the day mentioned in the notice, or on any other day to which the enquiry may from time to time be adjourned, the Loans Officer or other officer holding the enquiry, shall inspect the lands mentioned in the application and make enquiry as expeditiously as possible in the village as to the correctness of the statements made by the applicant, calling if necessary, for the relevant documents from the applicant and such of the creditors or other persons interested as may be present. (2) On the completion of the enquiry, the officer holding it shall prepare a record of the enquiry in Form H. If the cross-ing officer is not the Loans Officer, he shall submit a report of the results of his enquiry in Form H together with the loan application and other connected documents and records to such officer.

X. *Security.*—(1) No loan shall be granted unless the value of the security offered is not less than two and a half times the amount of the loan as finally ascertained under these rules.

(2) The arable land of which the applicant is the owner or in which he has the occupancy right, or so much of it as will be sufficient under sub-rule (1), shall be the security for the loan.

(3) Where the loan discharges all the debts of the applicant, all the lands, lands of which the applicant is the owner or to which he has the occupancy right shall be mortgaged to the Government, even though a portion of it may be sufficient security under sub-rule (2).

(4) The Loans Officer shall obtain an encumbrance certificate, for a period of not less than twelve years preceding the date of the application for the loan, in respect of the lands offered as security by the applicant.

XI. *Rate of interest.*—The rate of interest shall be 5½ per cent per annum.

The date for the repayment of each annual instalment shall be fixed in accordance with the provisions of the said rule. The first instalment shall be payable not later than twelve months from the date of the disbursement of the loan or of the last portion of the loan:

(2) The maximum number of annual instalments in which the loan shall be repaid shall not exceed 20 ordinarily or 30 in special cases. The annual instalments shall be fixed by the Loans Officer with due regard to the capacity of the borrower to repay the loan.

XIII. *Grant of loans and rejection of loan applications.*—(1) If, on the completion of the local enquiry and of such further investigation as may be considered necessary, the Loans Officer is satisfied that the loan may be granted, he shall record a decision to that effect, which shall be appended to the record of the enquiry in Form H and shall take immediate steps for the issue of an order granting the loan, and directing to whom and in what amounts, it should be disbursed. The order granting the loan shall be in Form I.

No. 177.—An accident occurred at about 10-45 a.m. on 5th August 1938 in the Bezwada Quarry due to the slipping of the sides due to local rains. About 1,000 cents of materials got detached from the rock and came down mostly in big blocks. One of the coolies working at the site got his right leg broken below the knee and was promptly removed to the Government Hospital for treatment where he is said to be progressing. Another man got jammed between the rocks and died instantaneously. The Police removed the body and after an inquest handed it over to the relatives of the deceased. Two other men are missing and are supposed to have been buried under the debris. Further investigation is proceeding. The question of the compensation payable to the injured and the relatives of the deceased is being taken up with the contractor executing the quarrying operations.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9 A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Kurnool Division, or as set forth in the conditions of contract. The tenderer will however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees annas, and in words of three pies. The rates should be written both in words

* Not printed.

and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract. The symbols Rs. nP. denoting the tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialing, dating and re-writing.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in the form will be rejected. Rates or lumpsum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract the drawings, specifications, or quantities given in inviting same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers must accept the material at these prices, and shall quote their rates for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials the charge to the contractor will remain as originally entered in the written contract. No carriage or local cartage will be borne by Government in connection with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor.

Note.—The periods to be entered in column one for the purpose of fixing the rate of progress may be fixed by the Executive Engineer to suit each case.

Period after date of commencement.—The work must be completed before 1st December 1940.

Tenderers should also quote the period required by them for completing the work.

In dealing tenders a shorter period required for execution will receive more favourable consideration. Under no circumstances will any date of completion later than 1st December 1940 be considered.

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be invited in order, and according to instructions.

16. The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms, whether they employ such technical staff, and if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm it shall be signed with the co-partnership name by a member of the firm who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorized officer who shall produce with his tender satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of Rs. 75 (seventy-five only) into the branch of the Imperial Bank of India or into the Government Treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned in the credit of revenue deposits on behalf of the Executive Engineer of the Guntur Division and enclose with his tender the challan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. The refund will be authorized by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs. 25 (twenty-five only) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental new lump-sum contract form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 65 of the standard preliminary specifications of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 2 p.m. on office days, in the office of the Executive Engineer, Guntur Division, Bezwada.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification" Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and suitability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries, or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications, or in the tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after continuation of the source of matter als defined in the Description Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source desired in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead as for any other reason, in case the contractor is found later on to have exhausted the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8 The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work.
(2) cartage.
(3) construction plant.
(4) water and lighting.
(5) cleaning up during progress and for delivery
(6) accidents.
(7) delays.
(8) particulars of payment
(9) responsibilities and liabilities of contractor

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of the schedule, and that the schedule is liable to alterations by omissions, deductions or additions at the discretion of the Executive Engineer, Guntur Division, Bezwada, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in terms of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of the contract, such lump-sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be written legible and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by drawing out, initialling, dating and rewriting.

10 Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized and, if any such alterations are made the tender will be void.

11. The tenderer should work out his own rates without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12 The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for

the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor :—

Period after date of commencement.	Percentage of work completed (value) with reference thereto. (Months).
	PER CENT.
Three months	50
Five months	100

13. No part of the contract shall be sublet without previous permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to secure payment on the contractor's behalf.

14. If further necessary information is required, the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. No payment will be separately made for baling water from foundation and forming protective bunds, clearing public or site and diversion of roads required during execution. The rates quoted by the tenderer must include the above-mentioned charges.

17. The tenderer may however, mention an earlier date which he will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work.
